

[0028] FIG. 150 shows a top view of the embodiment of the interface shown in FIG. 140 according to the present invention;

[0029] FIG. 151 shows a sectional view of another embodiment of the interface shown in FIG. 50 according to the present invention;

5 [0030] FIG. 152 shows a perspective view of the embodiment of the interface shown in FIG. 151 according to the present invention;

[0031] FIG. 153 shows a bottom view of the embodiment of the interface shown in FIG. 151 according to the present invention;

10 [0032] FIG. 154 shows a top view of the embodiment of the interface shown in FIG. 151 according to the present invention;

[0033] FIG. 155 shows a sectional view of another embodiment of the interface shown in FIG. 52 according to the present invention;

[0034] FIG. 156 shows a perspective view of the embodiment of the interface shown in FIG. 155 according to the present invention;

15 [0035] FIG. 157 shows a top view of the embodiment of the interface shown in FIG. 155 according to the present invention;

[0036] FIG. 158 shows a block diagram representing a medical scale interface system according to the present invention;

20 [0037] FIG. 159 shows an exemplary application program interface according to the present invention;

[0038] FIG. 160 shows a functionality flowchart of the medical scale according to the present invention;

[0039] FIG. 161 shows an initial screen of the medical scale according to the present invention;

[0040] FIG. 162 shows a low power message screen of the medical scale according to the present invention;

[0041] FIG. 163 shows a load cell error message screen of the medical scale according to the present invention;

5 [0042] FIG. 164 shows an initial weight screen of the medical scale according to the present invention;

[0043] FIG. 165 shows a menu option screen of the medical scale according to the present invention;

10 [0044] FIG. 166 shows a weight display mode screen 1656 of the medical scale according to the present invention;

[0045] FIG. 167A shows a screen displaying the weight in pound according to the present invention;

[0046] FIG. 167B shows a screen displaying the weight in decimals according to the present invention;

15 [0047] FIG. 168 shows a screen displaying the weight in pounds and ounces according to the present invention;

169
[0048] FIG. ~~168~~ shows a tare weight screen according to the present invention;

[0049] FIG. 170 shows a TARE indicator on a screen according to the present invention;

20 [0050] FIG. 171 shows a data management screen according to the present invention;

[0051] FIG. 172 shows a secondary storage screen according to the present invention;

[0052] FIG. 173 shows a memory error screen according to the present invention;
